# BLOCKBUSTER PART FOUR

Years ago, a covert military group called Weapon X discovered a mutant blessed with claws and a healing factor. They wiped his memory, coated his skeleton in the unbreakable metal adamantium and turned him into a weapon. This weapon, once known only as Logan, was given a new name... Wolverine.

The bite of a genetically altered spider granted high-school student Peter Parker incredible, arachnid-like powers: strength, agility, a spider-like sixth sense warning him of personal danger, and most amazing of all-- Peter can walk on walls. When a burglar killed his beloved Uncle Ben, a grief-stricken Peter vowed to use his amazing abilities to protect his fellow man. He learned the invaluable lesson that with great power there must also come great responsibility!

Matt Murdock is blind, but his other four senses function with superhuman sharpness and a radar sense. With amazing fighting skills he stalks the streets at night, a relentless avenger of justice: Daredevil, the Man Without Fear!

## PREVIOUSLY IN ULTIMATE X-MEN:

Things are bad for Wolverine. After a short time away from The X-Men, Wolverine returned to New York. While eating lunch at a diner, he was gunned down by a mysterious military group operating out of diaper service trucks. Seriously wounded, Wolverine made his way to Peter Parker's home in Queens (where he once followed Spider-Man after an earlier encounter) to find a safe place to heal.

Days later, after healing, Wolverine's departure was stopped when he saw the same diaper service trucks that shot him up at the diner across the street from Peter's house. With Spider-Man's help, they escaped the trucks, but Wolverine knew they didn't have long until the trucks appeared again. So the two went off into the city to regroup and put some distance between them and the strange military group that is hunting Wolverine.

The military group caught up with them and hit Wolverine with a missile that carried him into the Hell's Kitchen area of Manhattan before exploding. He escaped the explosion, but the military followed and cornered him in an alley. It looked like Wolverine was at the end of the line, but he was saved in the nick of time by Daredevil! But can Wolverine, Daredevil, and Spider-Man beat a military group armed with the most sophisticated military technology?

Did you ever think that maybe if you *didn't* have this mutant healing power, you wouldn't be so prone to end up, you know, like this?

Two blocks away there's an old woman who was shot in the leg because of all of this.

I'll take care of it, but you get him out of the city!!

Okay.
